

**Starting today, you can create a secure full time Internet income in 1-2 years. Just by working part time. Using this proven program, a full time income is easier and cheaper than you ever dreamed possible ...in only a few hours a week.**

## Full Time Income From Part Time Work

**Want a guaranteed full time income -- without all the hassles of a job and a boss? Here's some great news**

FACT: You can create a substantial Internet income by acting on what you are about to learn here.

FACT: Anybody can do this. It doesn't matter what your income is, what background you have or where you live. This "part time work from home" business is open to everyone.

FACT: You don't need business experience or a college education, or any particular type of personality. All you need is a proven system. A reliable system. This system.

**Easily replace and exceed your current income**

What you'll discover here is ***better than a job*** -- and better than superannuation, ***because you can grant yourself a pay raise*** anytime you like. Your extra money won't come through immediately but it is faster and easier than you might have imagined.

What this is NOT:

\* This is NOT multi-level marketing.

\* You do NOT have to go to meetings or make phone calls.

\* You do NOT have to recruit anyone (*though I predict you'll get so excited as the money rolls in that you will hardly be able to stop telling people about it... especially the people you care about*).

\* You do NOT have to sponsor to make money. We all earn equally. Your income depends on the number of positions that you purchase, NOT on the number of people that you personally recruit.

\* NO selling, NO inventory to move.

\* NO upline, NO downline.

\* NO matrixes to fill.

If you'd like to leave the full time workforce but can't afford to do that yet, please let me share two eye-opening income planning charts with you and answer one obvious question:

- 1, [The CHEAPEST way to create a full time income](#)
- 2, [The FASTEST way to establish a full time income](#)
- 3, [What's involved with this part time work?](#)

I'll describe them both here so you can choose the plan that best suits your time frame and your finances. Or you can create your own mix, once you understand the principles involved. It's quite easy. A lot of explanatory notes are provided at the end of this page and elsewhere on the site, as well as links to examine this whole topic in greater depth.

Put simply, what you're about to learn about is the best option that I have ever seen for part time work from home -- and it pays very well, as you'll see.

**Looking for a second income stream?** If you love your job but the boss won't (or can't) give you more pay, I can show you how to generate that extra income while you continue working at your job... because this business only takes a few hours a week.

Gary Harvey

## The **cheapest** way to create a full time income

The income plans described here are built on the best Internet income program I have ever seen. Additional information will display when you hover your cursor over the hyperlinks that are in italics ... *like this*. Full details are available in the [FAQ](#) and at the corporate site, but first let's look at the income-generating power of this proven system.

Date	Cost per week	Value of each position when it <a href="#">cycles</a>	Income from each position	Explanation
<b>This year</b>				
January-March (of course, you can start anytime)	\$10	\$20		During this time, you buy 1 \$10 <a href="#">position</a> each week. By the end of 3 months you own 13 positions on the income ladder. Your total cost \$130. Now you simply wait while the system does its magic to your money. During this cycle (cycle #1) and every cycle, the value of each position doubles -- in this case, it doubles to \$20.
April-June		\$40		Cycle #2. During this time, your 13 positions will again double in value. If you wish, you can add further positions.
July-September		\$80		Cycle #3. The doubling process continues. Your asset is growing in value at no extra cost to you.
October-December		\$160		Cycle #4. Its value doubles again in each 90-day cycle but the good news is that often cycles are faster than 90 days so your income is growing even faster than this conservative chart shows.
<b>Next year</b>				
January-March		\$320		Cycle #5. The doubling continues. By the end of this cycle, each of your \$10 positions is worth \$160.
April-June		\$640	\$320	Cycle #6. Now that all your positions have <a href="#">matured</a> , you start to get paid for each position. Every time one of your positions matures, you get paid \$320.
July-September		\$640	\$320	Okay, how much income does this produce? 13 positions @ \$320 each = \$4160 per 90 days, which is \$16,640 per year. Not enough? Buy some more positions at the start.
October-December		\$640	\$320	And so it continues...

**Summary:**

***You pay \$130 at the beginning for 13 positions in the income ladder, and then wait about a year and a half until your 13 positions have matured (that is, they have all begun paying you). Then you receive 13 x \$320 = \$4160 per cycle.***

**A cycle takes between 60 and 90 days, so...**

- **with a 90-day cycle, this is an annual income of \$16,640.**
- **with a 60-day cycle, that's \$20,800 a year.**

**If that's not going to be enough, you can add more positions when you start, or anytime. You can double or even treble your income. There is no limit.**

**If you bought 2 positions per week at the beginning, for a total cost of \$260, you'd now be earning...**

- **with a 90-day cycle, this is an annual income of \$33,280.**
- **with a 60-day cycle, that's \$41,600 a year.**

**If you bought 50 positions in total (over whatever time period you wish), your income would be 50 x \$320 = \$16,000 every time the system cycles. So...**

- **with a 90-day cycle, this is an annual income of \$64,000.**
- **with a 60-day cycle, that's \$96,000 a year.**

Welcome to **Ymservices.net**

### The **fastest** way to establish your full time income

Date	Cost per week	Value of each position when it <a href="#">cycles</a>	Income from each position	Explanation
<b>This year</b>				
January-March (of course, you can start anytime)	\$320	\$640		During this time, you buy 1 \$320 position each week. (Because you've paid the full \$320 price, you now own <a href="#">mature</a> positions that begin paying you in the next cycle.) By the end of 3 months, you own 13 positions on the income ladder. Your total cost \$4160.
April-June		\$640	\$320	Okay, how much income does this produce? 13 <a href="#">positions</a> @ \$320 each = \$4160 per 90 days, which is \$16,640 per year. Not

				enough? Buy some more positions. The earlier you buy them, the sooner you generate your desired income.
July-September		\$640	\$320	And so it continues...

**Summary:**

***You pay \$4160 at the beginning for 13 \$320 positions in the income ladder, and they start paying you during the next cycle. You receive 13 x \$320 = \$4160 per cycle.***

***A cycle takes between 60 and 90 days, so...***

- ***with a 90-day cycle, this is an annual income of \$16,640.***
- ***with a 60-day cycle, that's \$20,800 a year.***

***If that's not going to be enough, you can add more positions when you start, or anytime. You can double or even treble your income. There is no limit.***

***If you bought 2 \$320 positions per week at the beginning, for a total cost of \$8320, you'd now be earning...***

- ***with a 90-day cycle, this is an annual income of \$33,280.***
- ***with a 60-day cycle, that's \$41,600 a year.***

***If you bought 50 positions in total (over whatever time period you wish), your income would be 50 x \$320 = \$16,000 every time the system cycles. So...***

- ***with a 90-day cycle, this is an annual income of \$64,000.***
- ***with a 60-day cycle, that's \$96,000 a year.***

**[Click here to turn a few hours of part time work each week into a full time income.](#)**

### **So what's the **difference** between the fastest plan and the cheapest plan?**

You will have noticed that my summary comments below these two charts are very similar. Not identical but nearly so. What makes the difference? The income level is the same, but you reach it faster if you choose to pay more. So the difference is... time.

Using a target income level of \$33,280 per year (as above), and with a conservative (that is, slow) [cycle](#) time of 90 days, you could choose between:

- More time (6 cycles, = 12 to 18 months) and less money (\$260 in this example),  
or
- Less time (1 cycle, = 2 to 3 months) and more money (\$8,320 in this example).

Naturally you can vary any of these figures. You may want a higher income. You may

want to pay less. You might want to achieve your target income in 9 months. Etc. All this is achievable. This system is very **flexible**, allowing you build at your own pace.

## Join Here

**Are you ready to **start** creating your set-me-free income?**

### **Yes**

Then it's only \$21 to experience the proof positive that this business works.

You have a choice of three payment processing companies: INTGold (which has some of the lowest fees around & is highly secure, protected by two passwords and also in other ways) or StormPay (which allows you to pay using any of the major credit cards, though their fees to receive money are on the high side) or Evocash (very secure but not widely used). My personal recommendation is INTGold. Many of our members also prefer it.

The good news is that you can start with one payment processor (such as StormPay, if you need to fund your purchase from a credit card), then later change to INTGold before you get paid (to benefit from their lower transaction fees). You would make the changes from inside the password-protected members area.

Click any of these links to join. (The Join pages below are the same, except they allow you to join through different payment companies). You will make two payments, the first being US\$11 for your membership fee -- this is paid to the affiliate who introduced you. Then you make your first purchase of one (or more) [EPCs](#). The minimum purchase is US\$10. Then you register your name/address/etc into the company's records.

## Answers to **your** questions

### Give it to me simply. Just the basics.

We'll double your \$10 every 60-90 days until it reaches a recurring income of \$320 for you. And we'll do that for every \$10 you want to spend with us.

You wanted the basics. You've got them.

Now you might also ask "How long does this take?"

Your \$10 becomes \$320 in 6 [cycles](#). Here's how: In cycle 1, \$10 becomes \$20. In cycle 2, \$20 becomes \$40. In cycle 3, \$40 becomes \$80. In cycle 4, \$80 becomes \$160. In cycle 5, \$160 becomes \$320. In cycle 6, \$320 becomes \$640 and you get paid \$320 and the other \$320 is used to purchase you another position on the income ladder, but the great news is that this position pays you in ONE cycle. And that keeps on happening, time after time...

### How does this work?

Think of a ladder. You start climbing from the bottom, so every time you buy a position on the income ladder, that position enters at the bottom rung of the ladder. When one of your positions reaches the top of the ladder, you have completed what we call a cycle, and two things happen: 1) you earn a commission and 2) your position is re-entered at the bottom of the ladder... so that you can earn more.

When a position [matures](#) (which is after 6 [cycles](#)), you get paid \$320 -- and the other \$320 is used to purchase a new position for you. That new position pays you at the end of the NEXT cycle. This recycling process continues again and again.

If you want to increase the number of positions you own on the ladder, you simply instruct our system to NOT pay you. As each position matures, the \$320 that would normally be used to pay you is used to buy you an extra position on the income ladder. This payment option is called "Re-purchase until notified" and those changes are under your total control.

### What sort of a company is this?

We are a creative advertising company, one in which **members are paid recurring commissions based on their advertising purchases**. We're in the process of developing the most valuable [safelist](#) on the Internet.

(*You're got nothing to advertise?* Don't worry. Many members have business opportunities they'd love to tell you about and one of them may appeal to you, or you can just send out public service announcements.)

The company also provides a **proven income plan** which you've been introduced to on this page.

### Tell me about the part time work -- what do I have to do?

It's easy enough. When you join, you're agreeing to do three things:

- 1) Promote the company in a professional and business-like manner.
- 2) Place ads in our [safelists](#). What you are purchasing is Email Posting Credits so you can post your ads to our safelist.
- 3) Read the ads and postings of other people.

You'll get guidance and assistance with #1 and #2 but you will have to set aside some time each week for #3. So the big question now is...

Could you do "*all that work*" to earn a full time income using our system?

The fact is...

***Using this program, anyone can earn a huge income with very little effort.***

#### **Put me in touch with some of your members.**

[Meet a few of our many success stories](#)

#### **How long has this been going?**

Established in July 2002, the company has been paying its members ever since. There have been no missed payments and no late payments.

#### **How much money has been paid out to members? & how many members are there?**

Here are the latest [commissions paid](#) figures, updated regularly via this panel which appears on many member websites. (Yes, you can plug [this](#) code into your website too -- if you wish.) And here's the membership [count](#).

And here is a recent [Commissions Table summary](#). It's a huge webpage so please be very patient (*maybe go and make a coffee while it loads*). Each line represents one position on the income ladder. Column 1 is the current transaction number for that position, column 2 is the previous transaction number (for the last time this position [cycled](#) -- if it's blank this is a new purchase which has not cycled before), column 3 is the commission payable when that position reaches the top of the ladder this time.

#### **I've lost money in online businesses before. How do I know this won't be the same?**

Everyone succeeds with us. We've been in business since July 2002 and NO ONE has ever lost money here. When you understand the way that the system works, you will see why we can confidently say that nobody has lost money with us.

#### **I'm still skeptical.**

Yes, I admit it does seem too good to be true and you are totally free to reject this.

Alternately, you may like to read my answer to the "[Where can I get more proof?](#)" question below.

#### **How risky is this?**

This is **not** some high-risk money game. It's **not** an investment program with a speculative ROI (return on investment) or anything similar. Also, it's **not** MLM and it's **not** a ponzi. It's none of those things.

We have a unique (one of a kind) business model which has now been proven since its inception in the middle of the year 2002. Our product is advertising. We are in the advertising business. Ask yourself: How risky is the advertising industry? Advertising will exist as long as there are businesses that want to get their messages out.

More precisely, we are in the [safelist](#) advertising business. What you are buying is advertising credits (we call them [EPCs](#)) that allow you to post your ads to our membership.

**Perspective:** Already the Internet has major problems with spam. It's costing business billions of dollars. When spammers use a legitimate email servers to distribute their unwanted emails, it can quickly cause that email server to become blacklisted... which causes legitimate users to suffer along with the guilty. Naturally, businesses and legislators are scrambling to find solutions to the ever-growing tidal wave of spam. In this content, our paid safelist business is predicted to **become more and more valuable**. Every one of our members has expressly agreed to receive commercial emails from other members, through our safelist system.

So rather than being risky, I submit to you that it's quite the opposite. By choosing to join our paid safelist business, you're joining up with a business that has an increasingly valuable product.

#### **Does this work in Australia/UK/South Africa/NZ/Finland/Germany/my country?**

Yes. Although most members are in the USA & Canada, we have members in countries all round the world. There are, however, a few countries which are not served by our payment processing companies (*sorry*). Email me in case someone here knows a solution.

#### **Is there an age limit?**

Yes, you must be 18 or older.

#### **Is there a guarantee?**

Actually, there are two [guarantees](#) ('double your money back' and 'triple your money back').

#### **What strategy do you recommend for buying EPCs?**

[Two strategies compared](#)

#### **Do you have any scenarios I can look at, to compare results?**

[\\$10,000 available for 2 years](#)

[Alternative paths to an annual residual income of \\$64,000](#)

[To set up a residual income of \\$2000 a month](#)

More coming...

#### **But I can't sponsor / I don't want to recruit my friends & family.**

You don't have to sponsor to earn. We all benefit from the collective efforts of the entire membership. All the better if you can, but you are not penalized if you can't. We are a family-type business where we help each other. ***We know of nothing else like it.***

The technical term for the structure of our business model is a straight line matrix. I've described it as a ladder. Everybody joins at the bottom of the ladder. Everybody climbs the same income ladder. So even if you never sponsor anyone into the business, others will be doing so -- and you will benefit. This is one reason why we say that ***nobody gets left behind.***

#### **But I don't have any computer skills / business experience.**

You don't need to be a computer whiz. If you know **how to use email** and **how to visit websites**, that's all you need. Our friendly group will teach you a few extras as you go along, but only if you want to. Lots of us are real beginners with the computer. In fact, you don't even need your own computer. Just an hour or two of internet access each week.

What's more, you don't need your own website -- [Graham Christie](#) doesn't have one but this wonderful business now generates a full time income for him. Yes, I was surprised too ...until I learned how this program works.

As far as business skills go, you can succeed with NO selling, NO recruiting, NO special skills.

#### **What determines when I get paid?**

It's a simple formula. The starting date is whenever you purchased (or repurchased) your [position](#). Then just add the current cycle time (not the cycle time when you purchased). For example, if the cycle time is currently 80 days, you'll get paid 80 days from the date of your purchase.

#### **What determines the length of the cycles?**

That's simple too. The amount of funds available to pay the commissions due. Some days or weeks may have fewer commissions due to be paid out, so the [cycle](#) time shrinks. During a period when the payouts are above average, cycles will get longer. When more money comes in than goes out, the cycle time shrinks. And vice versa.

#### **How long can this program last? What about market saturation?**

I imagine that every one of our members has asked this question. The simple answer is: the market is huge and the surface has hardly even been scratched. So I expect that the company will be around for a very long time.

Why? We offer an in-demand product (advertising that has a proven effectiveness) which is accompanied by a lucrative reward for every member. ***The more problems the internet has*** (and I refer to email delivery problems such as spam, spam filters, and server blacklists -- but there are also viruses, trojans, worms, adware, malware and more), ***the more valuable a safe list or safe group will be.*** And that's exactly what the company provides -- a [safelist](#) advertising system that also provides built-in rewards to its members.

By the way, the company maintains the right to manage its affairs for the benefit of all our members, not just a few. This also ensures longevity... so members can bequeath their income streams to their children and grand-children.

In May 2004, the company began to engage people whose full time job it is to get the word out. Because of this and other factors, we feel we're on the verge of significant (even massive) growth. In other words, this is a great time to join. The business model is proven, the infrastructure is in place, the members are excited, the management is committed and the unreached market is huge. With all this growth, we expect that

cycle times will get shorter too.

### **Where does the money come from, to pay the commissions?**

As with any sound business, outgoing payments are funded by incoming payments, which in this case include the following:

- 1) New members, bringing in new funds.
- 2) Repurchase of [positions](#) by existing members. Every time a position on the ladder matures to its top value of \$640, half of that amount (\$320) is fed back into the system and creates another position for its owner -- as well as the fact that he/she gets paid \$320 at that time.
- 3) Existing members who choose to purchase additional positions on the income ladder. This happens frequently because we all recognize a good thing when we see it.
- 4) A less obvious income source is retail advertising revenues, where companies pay to promote their business to our highly desirable mailing lists. *Although some retail advertising is sold currently, this is projected to increase significantly when the new retail site is available (which will be after the next site upgrade, around 4 July 2004). This site is for retail customers to purchase advertising at a retail price, which is at a much higher premium compared to the discounted wholesale prices that our members buy at today. The benefit to the retail customer is that we have a larger demographic of buyers that have proven they are comfortable with reading advertisements and making purchases through those advertisements. Our goal is to be the best place to advertise. Why? Because we can guarantee them a large number of people will see their advertisements.*
- 5) There are other income sources (including investment profits) which feed the commissions pool, but the details of these are not disclosed due to the need to protect the company's trade secrets.

### **How much have you been paid?**

Here's a chart I update regularly, showing [how much commission this has paid me](#). Some others are earning more than I am. Some are earning less. It all depends on how many mature positions you own.

### **What's your connection with the company?**

I am just a member. Like I hope you will be.

After conducting my own intensive due diligence process, I recognised the enormous potential of this program... so much so that I have now created several of my own promotional websites. Plus there are other domains that I've registered for future use.

But you don't have to do any of that. You will be given everything you need when you join.

### **Why don't you state the name of the program here?**

The company has a very strong anti-spam policy and I don't even want to come close to breaking it. Also, I value this program so highly that I want to see it grow and remain secure for many, many years. In fact, I want to be able to bequeath this income source to my children. So in this era when there are many trigger-happy spam complainers, we don't want to provide them with any ammunition. If that means I don't name the company on this page, so be it. By clicking any of the [join](#) links, you will go straight

through to the corporate site which is rich with additional information and full disclosure.

### **Why haven't I heard about this before?**

At the start (in 2002-03), news about the program was mostly spread by word of mouth. As the number of members grows, our combined reach is also growing but the internet is a huge place and we've still only reached a tiny fraction of the people who could benefit from this. In the 2 years we've been operating, some of our members have used the various advertising media.

*More recently, the company is currently (June 2004) looking at engaging full time marketing staff to get the word out.* Because of this and other reasons, we feel we're on the verge of significant (even massive) growth. In other words, this is a great time to join us. The business model is proven, the infrastructure is in place, the members are excited, the management is committed and the unreached market is huge.

### **Where can I get more proof?**

Due diligence is a great idea. I thoroughly recommend it. Here are some ways to get the proof you need...

Visit [EmoneyNews.com](#) where you will see proof that members are doubling their money every 90 days or faster. Take the free tour and learn how the program works, in the simplest of terms. This site is very popular (as you will see from the Alexa traffic score if your computer has their free [toolbar](#) installed).

Join our information call. Full details and the current schedule are available at EmoneyNews.

Visit the [Bulletin Board](#) and ask your questions.

[Ring or email Kim](#). Yes, the owner answers his own email and is available by phone. He will even call you on his dime.

Email any member (there are lots of email links [here](#) and at the [company website](#) -- for this exact purpose).

Search [Google](#) or [Yahoo](#) for negative comments (you won't find any disgruntled ex-members).

Keep watching as we keep on growing... and paying. [Subscribe](#) to the Full Time Income From Part Time Work newsletter. (*Yes, it is a mouthful, isn't it? It's also FREE.*)

Visit any of these [member sites](#). These are the private websites of some of our members where they tell about their experiences with this business. If you choose to develop a site (*and you certainly don't have to*) and would like it added to the list, simply drop [the webmaster](#) a note with your URL.

Or [email me](#) with your questions. I'd be glad to help!

And whenever you've completed your due diligence and are ready to come on board, we'll be glad to welcome you.

### **Can I get a copy of this site?**

Yes and no. Let me explain. Copying the site is not permitted because the intellectual property on every page is copyrighted protected by the ? statement at the bottom. But you certainly get a web page similar to this with your name, email and affiliate links inserted and with hosting included. Full details [here](#). We welcome all (non-spamming!)

promotional efforts. In fact, promoting the business in a professional and accurate manner is one of the membership requirements (it's part of the "part time work" we do).

Tell a friend about... Full Time Income From Part Time Work.com

**Privacy Policy:** "We do not sell or rent your personal information to third parties for their marketing purposes. We view the protection of member privacy as a very important community principle.
