How it works...The basics

- Step 0. You make a purchase of 4 EPC's (\$40.00)**
- Step 1. At the first cycle, your \$40.00 doubles to \$80.00**
- Step 2. At the next cycle, your \$80.00 doubles to \$160.00**
- Step 3. At the next cycle, your \$160.00 doubles to \$320.00**
- Step 4. At the next cycle, your \$320.00 doubles to \$640.00.**

Now this is were it starts getting exciting. You will get paid **\$320.00** and the remaining \$320.00 will be re-purchased back into the system. From here on in, Step 4 will keep on repeating forever. So from that very first payment of just **\$40.00**, you will keep getting **\$320.00** paid to you on each cycle.

The information shown above just covers one purchase...so can you imagine how many **\$320.00** payments that you would recieve if you spend **\$40.00** every week? It would get to the stage were you would have to give big amounts away to your favourite charity.

Below is a current log of my own **\$40.00/week** purchases plus the commission value on each one.

Each **\$320 Matured** position below, is now paying **\$320** into my Intgold account...at each cycle (currently around 60 to 90 days).

This \$40/week Purchase Plan has matured : 31st October 03

The last \$40 purchase to be logged here is: 03/29/04. This is because the page will start to get too large and will take more time to load into your browser. However, I will continue to complete the existing purchases until they all reach the **\$320 Mature level**....*Steve Fitzsimmons*
